Opus Register Update

Outlined below is the updated set of screens that a new user will go through to create an OpusEvent account.

**Home Page:**
Click **Create an account**.

Creating a New User Account:
Step 1: New User Account
After filling out this information and clicking **Next**, an e-mail containing a verification PIN is sent to the provided e-mail address.
Step 2: Account Verification
In this step the user provides the PIN that was sent to them or can request a new PIN.

Step 3: User Information
Here the user finalizes their user profile with their contact information and chooses whether to add a membership. After clicking Create User they will be logged in to the system. If they opted to add a membership they will be directed to their User Profile page and presented with the
If they opted to link a membership they will be directed to their User Profile page and presented with the membership dialog box as shown below. The membership Type is pre-populated with the type they selected in the previous screen.
